Monk collection

by GRUPA

The **Monk** collection brings together the regional modernist tradition and contemporary design. Originally, the chair and easy chair were designed for the renovation of the architectural icon – the Palace Hotel in Dubrovnik. At the same time, they were homage to the very popular Lupina chair, a classic designed by Niko Kralj. This simple idea is reduced to finding harmony in joining two bended platforms: one for the backrest and the other expanding into the armrest. This results in an upholstered shell mounted on various types of legs – higher ones for the chair and lower ones for the

armchair. The name for this collection is a figurative association that simultaneously follows the modernist ethics that inspired the team of designers: it seems as if an old monk dressed in modest cotton clothes decided to sit in an unpretentious wooden chair. The two Monks, a chair and an easy chair, fuse the everyday life filled with work and contemplation. The collection is supplemented with low tables, a dining room table and a bar stool.
