Rhomb collection

by **SMPDO**

Rhomb is a spacious, comfortable and solid chair with armrests, produced by combining the latest wood manufacturing technologies and sophisticated handcraft. Its character is defined by the rhomboid section that rotates and changes the shape depending on the function of the curve that unites the backrest and the armrest. Through selection of several types, colours and solid wood finishes, Rhomb easily adapts to various interiors, either residential or public.

A black and white photograph of a modern interior display. In the foreground, a black wooden chair with a curved backrest stands on a white platform. To the left, a blue modular sofa is partially visible. In the background, a white box with the word 'Dobra' printed on it is visible. The floor is highly reflective, showing the chair and the box.
