Seam collection

by BÖTTCHER & KAYSER

Seam is characterized by a unifying line which goes all over and draws the sofa's shape. The visible seams, analogous to leaf veins, define its organic structure. The straight external outlines come in contradiction with the softness of the padded seat, armrests and backrest. The thin feet, made of square section bended bar follow on from the seams, and bring lightness. Seam is a unique system when it comes to its inclination cuts on all sides. It makes it more welcoming just like its shape.
