Layout collection

by NUMEN / FOR USE

Layout was designed as a modular crossover between architecture and design. Its pragmatic design brings the ultimate comfort of a home sofa into an office environment, hotel lobby or airport lounge, offering a cocoon of privacy. This concept provides a solution for your entire interior design project based solely on four basic elements - the seater with backrest, two corners and a pouf.

SPECIFICATIONS AND TECHNICAL DRAWING

STRUCTURE	solid wood, plywood
SEAT & BACKREST	HR foam, polyester wadding
BASE	PVC / metal platform BLACK height 8, 12 cm + powder coating
