2005 - 2006
 The first 100 days of the new administration saw a number of changes in the cabinet, including the appointment of a new Secretary of State, the Prime Minister, and the Chancellor of the Exchequer. The new government also introduced a number of new policies, including a new tax system and a new social security system.

The following table shows the results of the regression analysis for the dependent variable "Number of publications" (N = 100). The independent variables are "Gender" (Male/Female) and "Age" (Young/Middle/Older). The table includes the coefficient estimates, standard errors, t-statistics, and p-values for each variable.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.
