Aire collection

by **RAMOS + BASSOL**

Modular sofa, **Aire**, designed by the renowned Spanish duo Ramos+Bassols, Aire introduces a fresh perspective on contemporary seating.

Aire's defining feature is its floating base, which enhances its visual lightness while serving as an organizational platform for modular elements such as side or end tables. Combined with soft lines and exceptional comfort, this design detail creates a sense of weightlessness, making Aire an ideal centrepiece for both residential and commercial interiors.
